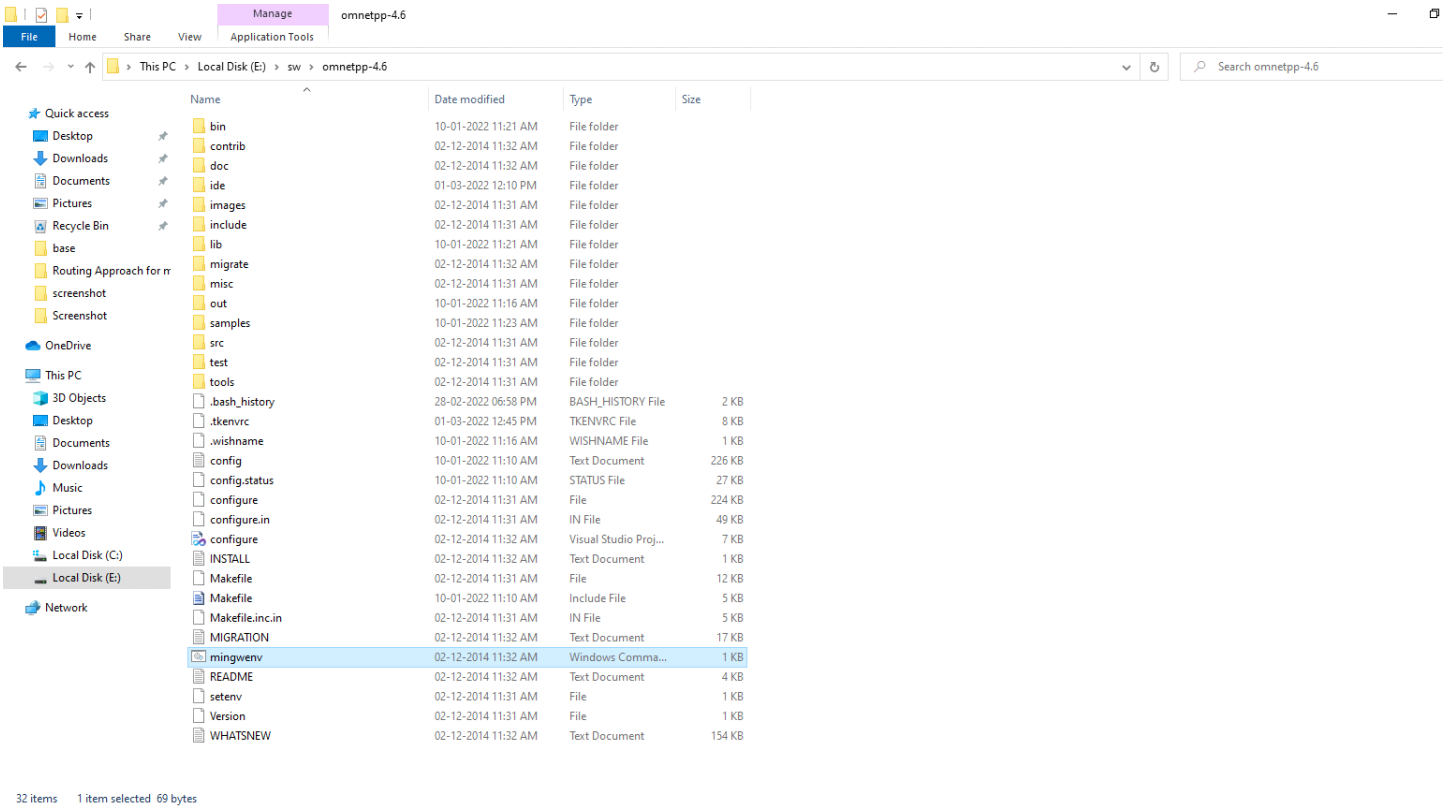
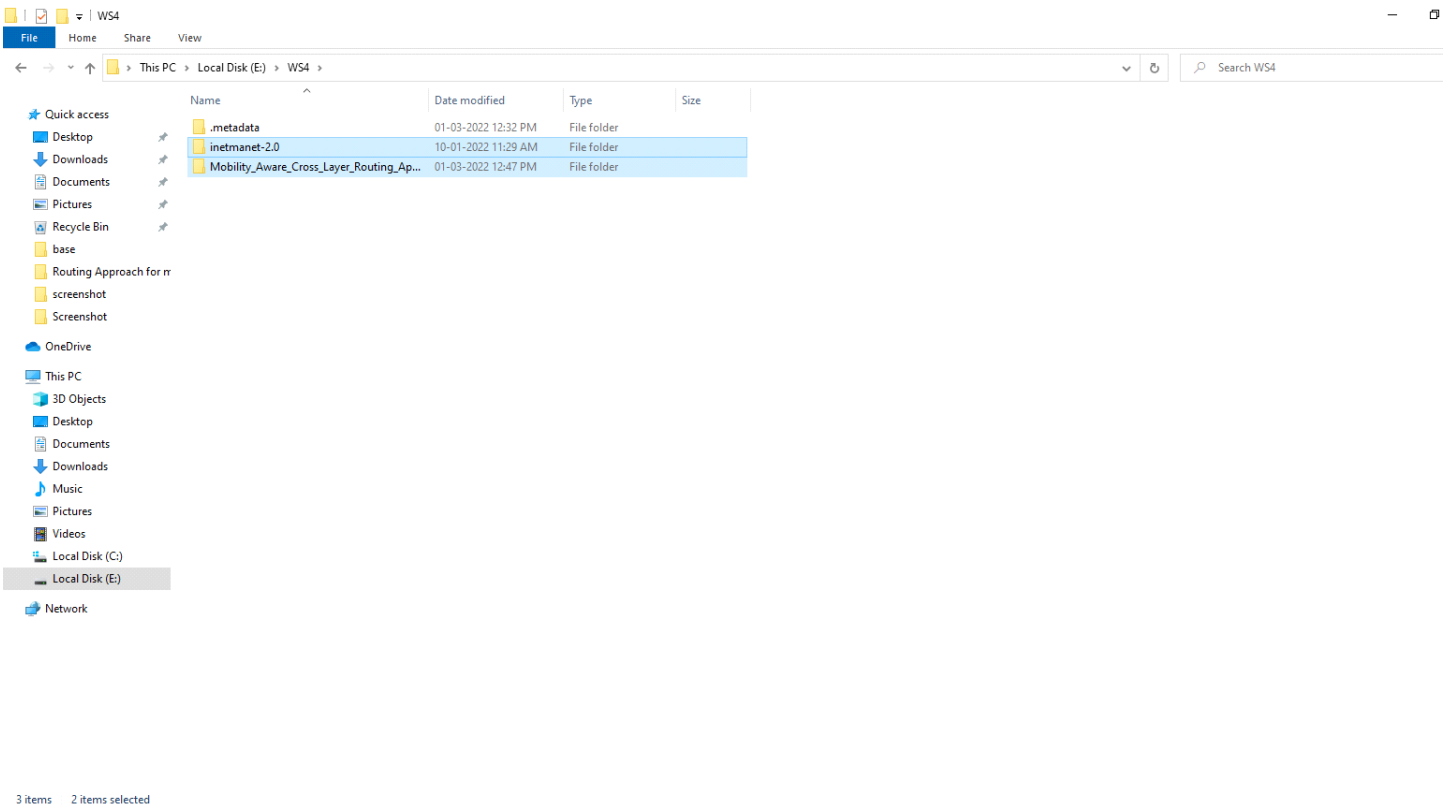
First launch the omnet ide. For that double click on “mingwenv” file under “C:\omnetpp-4.6” folder (i.e., your omnet++ installed location)

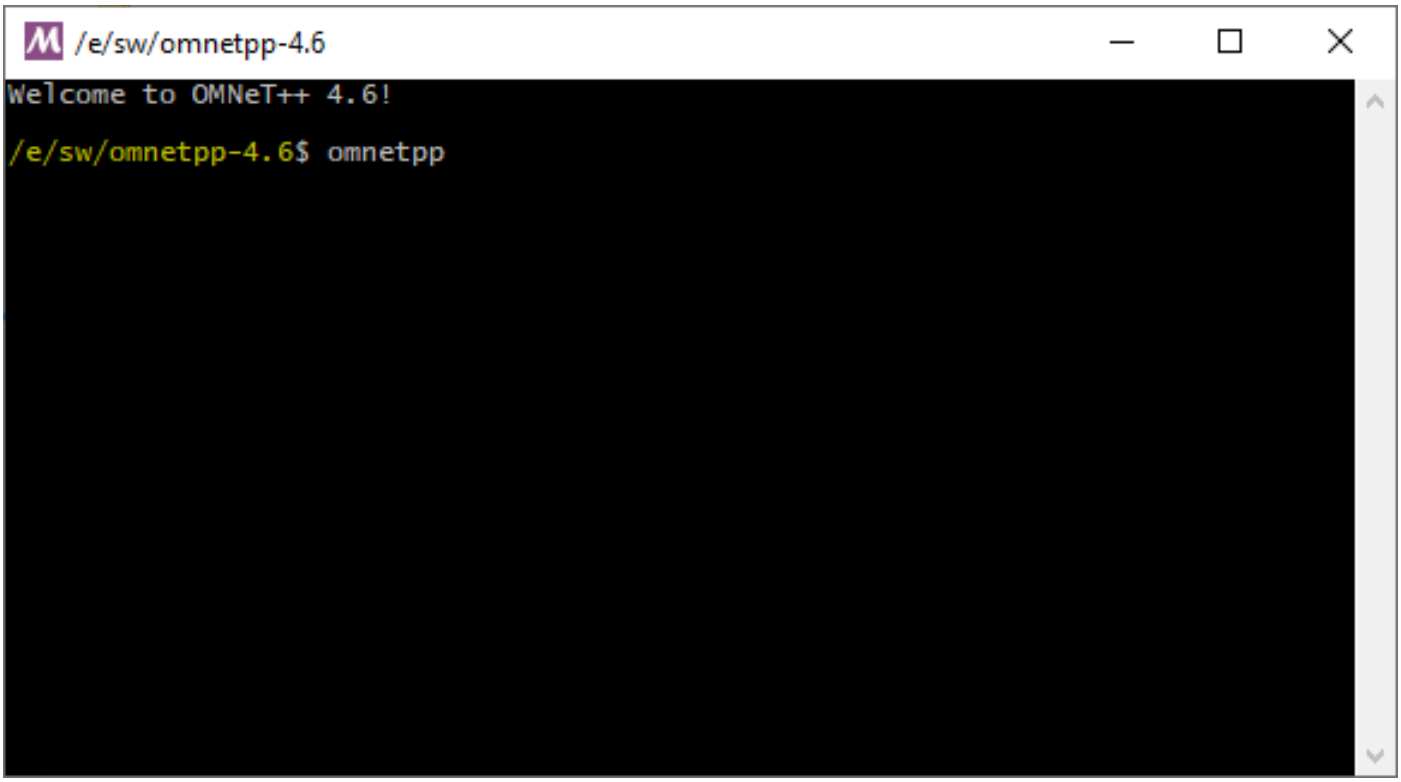


Next copy the “inetmanet-2.0”, “Oversim” and “Mobility_Aware_Cross_Layer_Routing_Approach” folders.

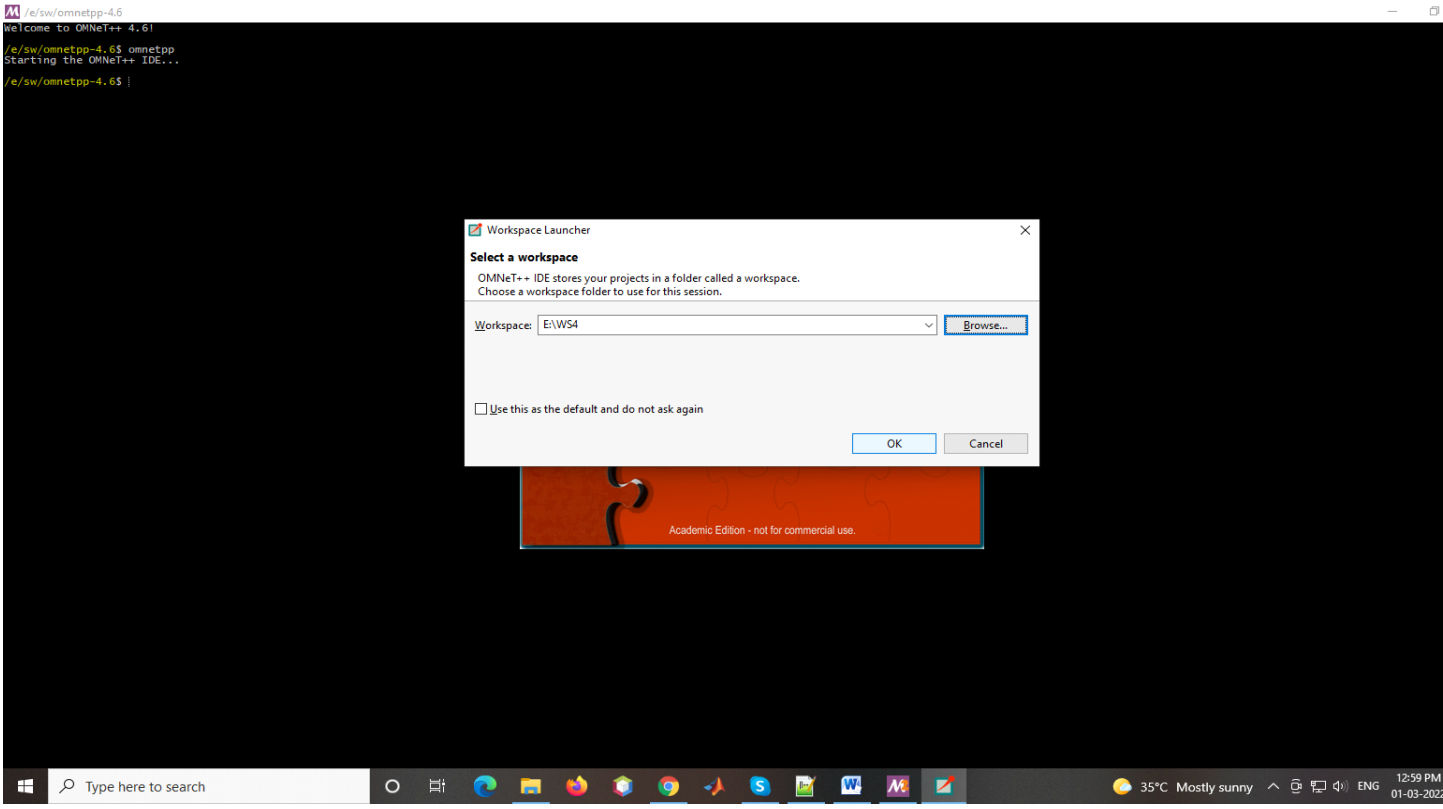
Then paste the copied folders into your omnet workspace location



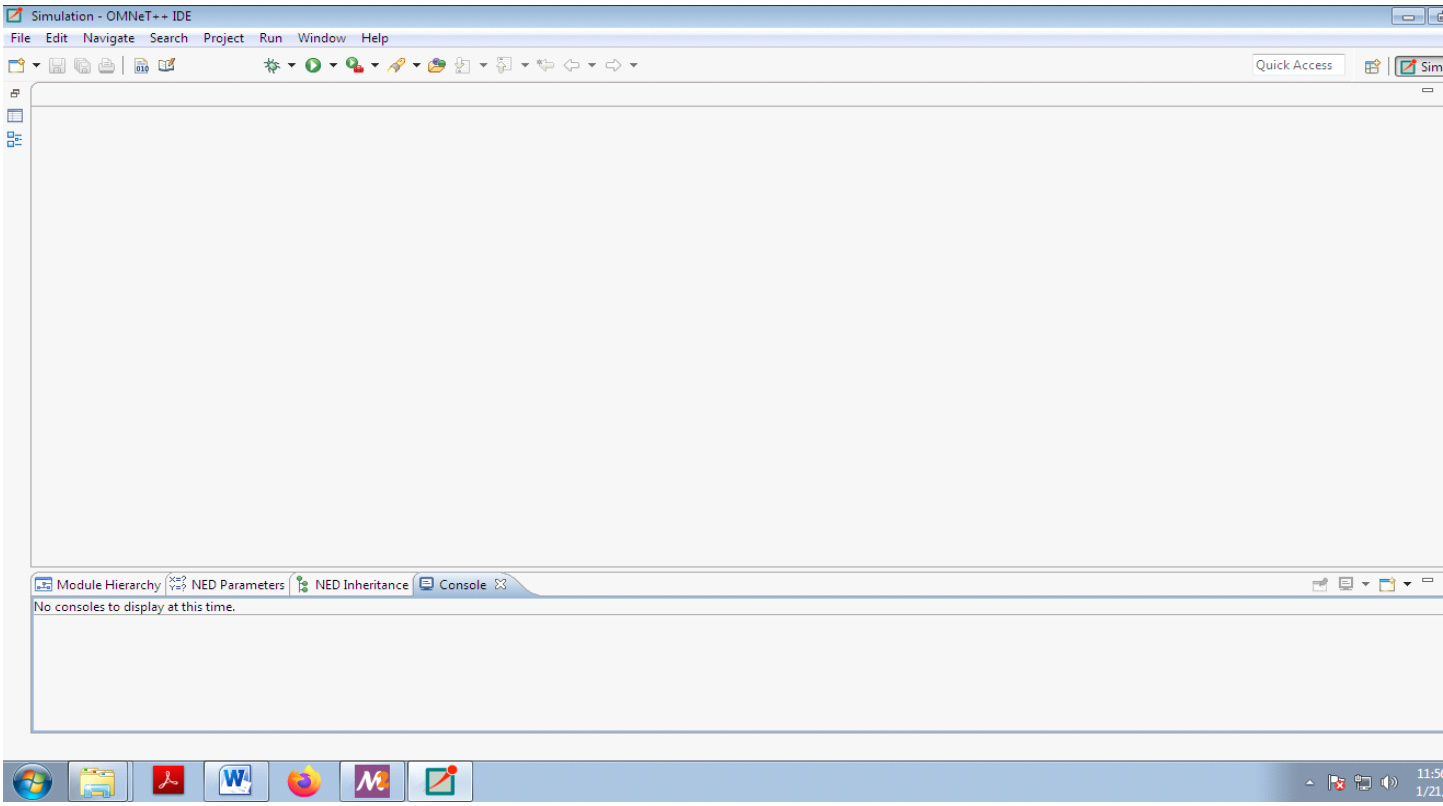
Then Type **omnetpp** in your Mingwenv



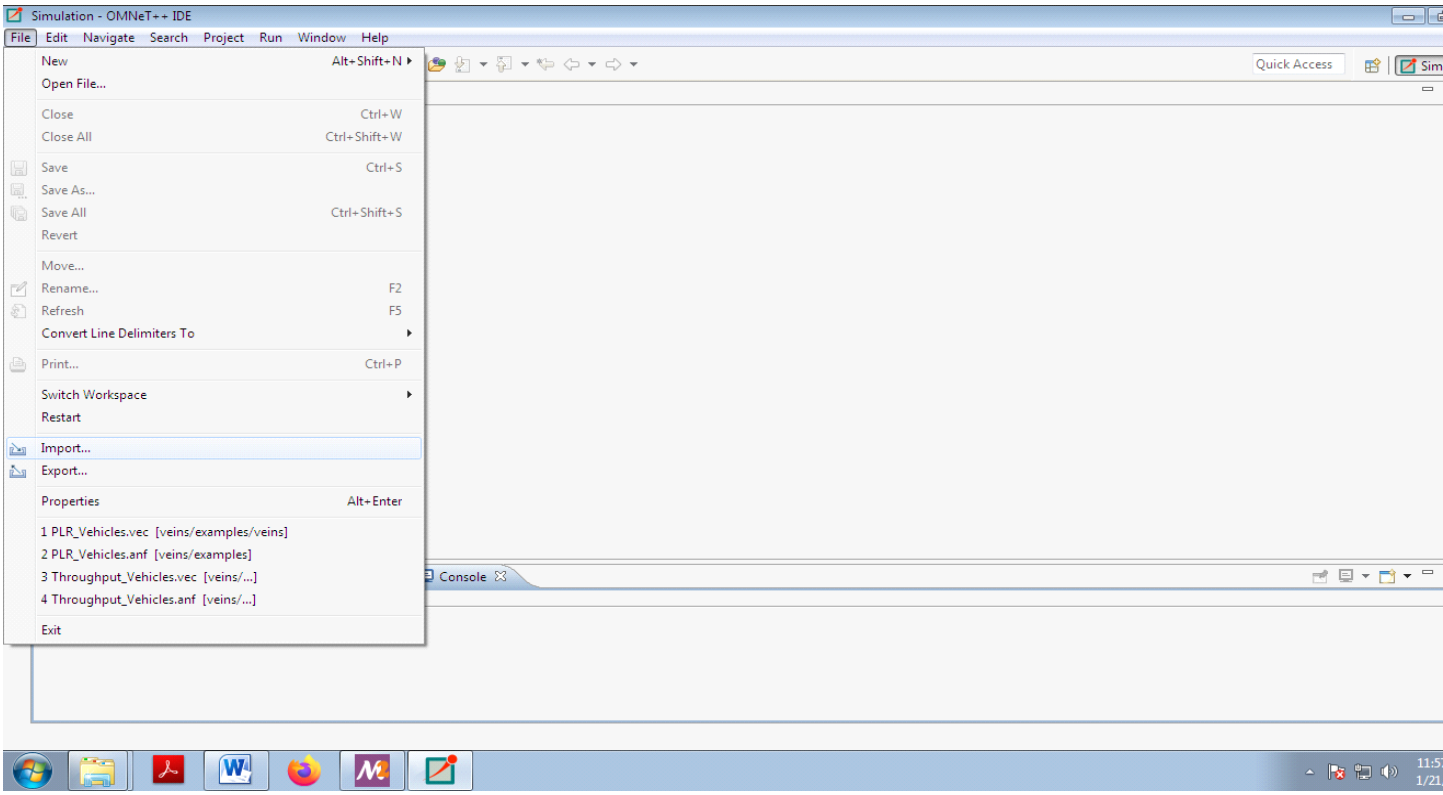
Next browse the workspace (location you have pasted your project folders) and click ok



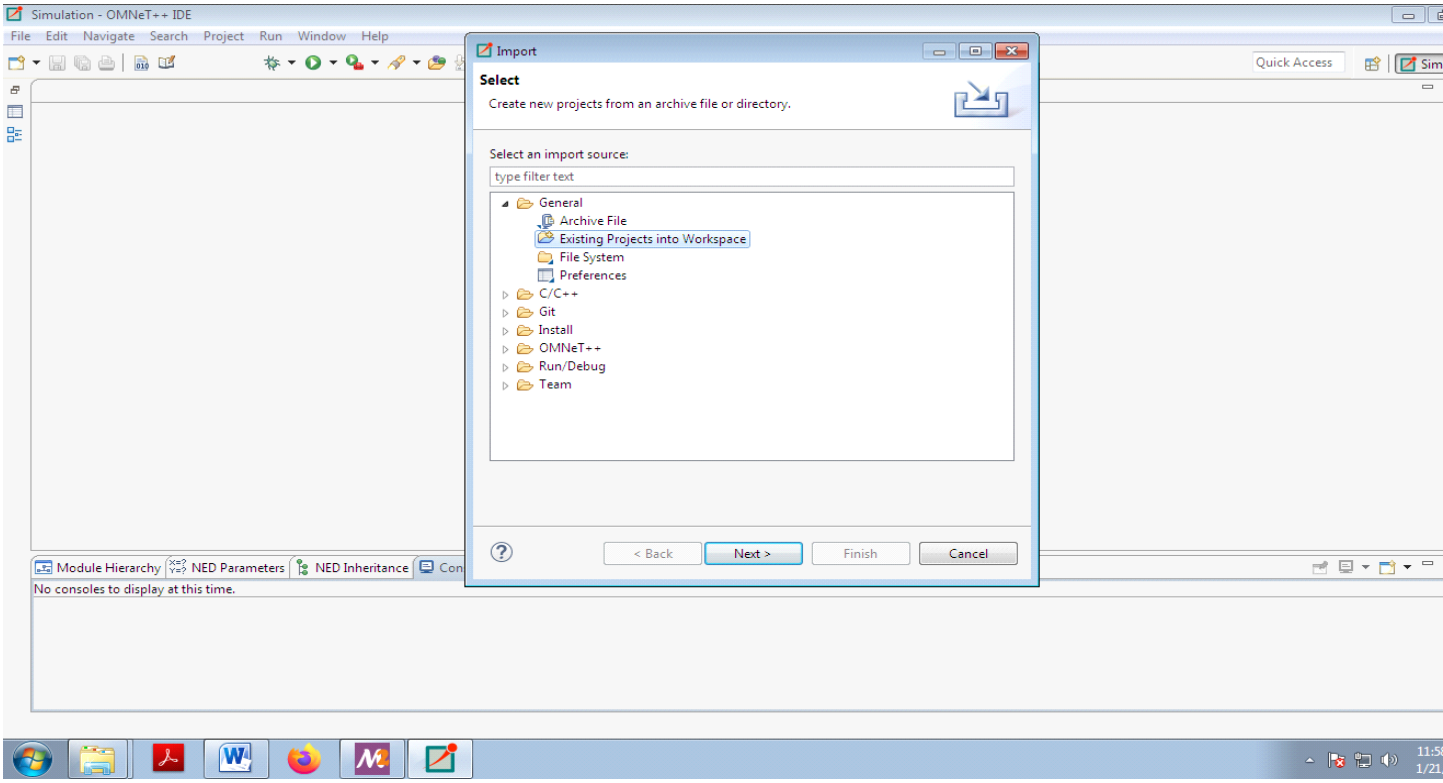
Next Omnet environment get opened



To open your project, go to File-> import (select import).



Next select “Existing project into workspace” then click next



Then click browse. Next choose all subdirectories from “Need-to-copy-at-Omnetpp-4.6---samples” directory then click ok and finish.
